Abstract: There is a surge in battery manufacturing across the globe due to various advantages in terms of energy efficiency and localized mitigation of carbon footprint. The world needs non-conventional Industry 4.0 sustainable methods for manufacturing of Batteries. Additive Manufacturing (AM) is becoming extremely popular among battery manufacturers. This paper provides a review of the trends and challenges for various Additive Manufacturing techniques used for the manufacture of batteries. Along with AM is provided as the need for increasing demands like higher capacity, fast charging rate, long cycle life and cost reduction, the challenges in AM are reported. An exhaustive review including the electrodes microstructure with different materials and AM techniques, data driven manufacturing, and state-of-the-art manufacturing process has been conducted.

Keywords: Battery; Additive Manufacturing; microstructure electrodes; data driven manufacturing; state-of-the-art manufacturing; futuristic manufacturing; recycled batteries; flexible batteries

STEM Activities

1) Member of professional bodies, American Society of Mechanical Engineers (ASME), Society of Automotive Engineers (SAE), Indian Institute of Welding (IIW).

2) Volunteering at Gujarati Literature Festival at Gujarat University for Astronomy observation with Tanmaye's Amazing Space. (December 2023)

3) Delivered session on model rockets and demonstrated static motor test at STEM Carnival organized by SciKnowTech. (April 2024)

4) Invited as the judge for a STEM and team building competition on building balloon structures. Volunteered for organizing extempore competition on youth day with SciKnowTech Foundation, VIPNET science club. (November 2024)

5) As part of the STEM activity at the year-end science carnival organized by SciKnowTech, I conducted an egg-drop challenge event and volunteered for the overall carnival. (April 2025)

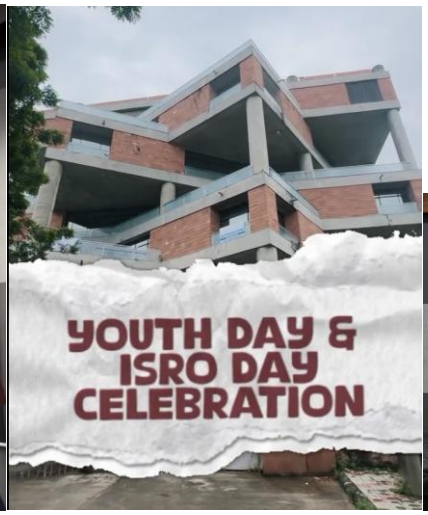

6) Gujarat Science City visit as a STEAM activity, guided children of different ages in the space gallery, robotics gallery and aquatic gallery of the science city. Instagram (August 2025)

7) Guest speaker at the Gujarat University for Startup and Entrepreneurship Council (GUSEC) to give a talk on rockets on the occasion of ISRO day and Youth day. Instagram (November 2025)

Extracurricular Activities & Leadership

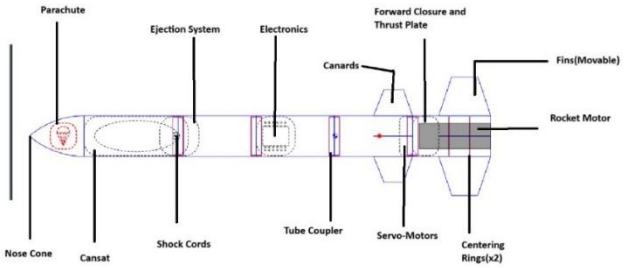

1) Founding President of the SciKnowTech VIPNET Science club, made for children and by children. It has now become a well-known national initiative under the SciKnowTech foundation and government of Gujarat. Now I am serving as the mentor for the club, also volunteering for events year-long. (2021)

2) Lawn Tennis Secretary at PDEU. Managed Inter-University Sports Cup (Energy Cup) in the years 2024 and 2025, along with small events like intra-cup, fresher's and team selection.

3) Technical Subcommittee member at Encode – Programming club of PDEU. (2023-2024)

4) Treasurer and Technical Engineer at Apogee – the aerospace club of PDEU. Apogee mostly focuses on model rocketry designing different types of rockets and experimenting with different technologies. We have used sugar, black powder and sorbitol fuel over the 3-year experience. We have developed reusable solid motor casings with De-Laval nozzle design. I do design, analysis of rocket and its trajectory along with heading the overall technical department as a systems engineer. As the treasurer, I have managed a total of around ₹1 Lakh along with raising sponsorship of ₹3 Lakh. We have participated and reached the final round of the national level model rocketry competition organized by ISRO.(2023-2026)

5) Logistics Subcommittee member at Daastan – the dramatics club of PDEU. (2023-2024)

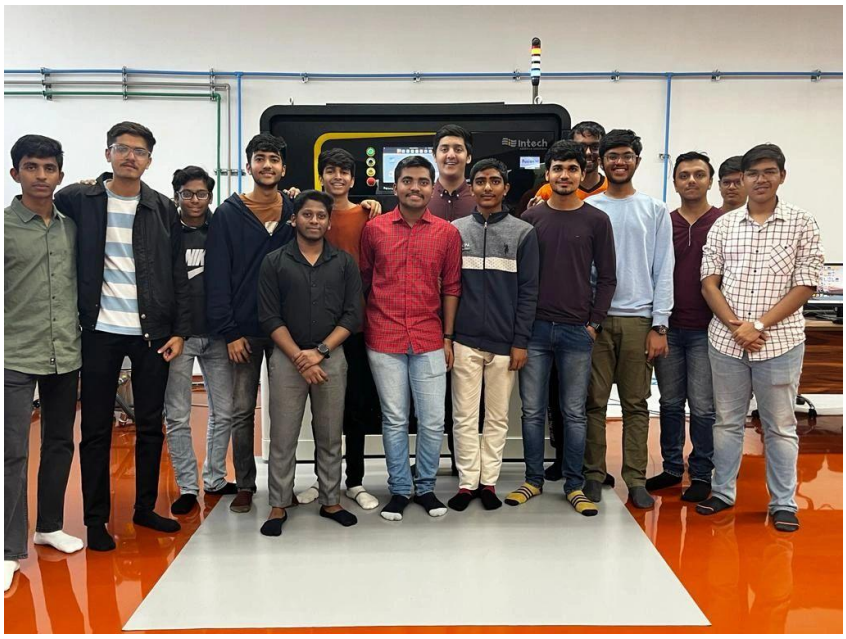

6) Selected to showcase metal 3d printing facility at PDEU to chairman Reliance Industries Ltd. And President PDEU, Dr. Mukesh Ambani (January 2024)

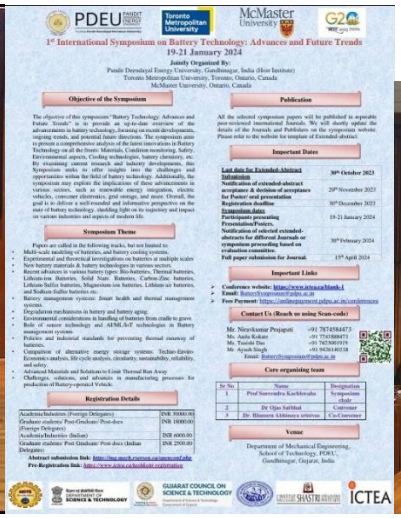

7) Lead and delivered 1 hour session on Metal 3D printing to Mechanical Engineering 1st year students. (January 2024)

8) Anchor and Lead Coordinator at the 1st International Symposium on Battery Technology, jointly organized by PDEU, ICTEA, McMaster University, Toronto Metropolitan University. (January 2023)

9) Delivered a session on my review paper to MTech, Mechanical 1st year students during the "Young Profession Seminar" as an invited speaker. (April 2024)

10) Coordinated and delivered lectures during the 5-day CFD workshop. (July 2024)

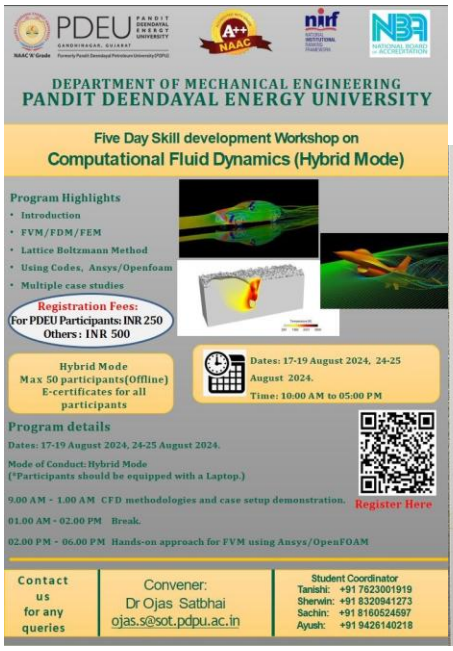

CERTIFICATE OF APPRECIATION

This is to certify that Mr./Ms./Dr./Prof. Ayush Singh has assisted in tutoring in a 5-day workshop on 'Basics of Computational Fluid Dynamics' organised by the Department of Mechanical Engineering, School of Technology (SoT), Pandit Deendayal Energy University (PDEU) at Gandhinagar during July 15, 2024 - July 19, 2024

Hello **Ayush Singh** ,

We are pleased to inform you that you have been selected to work on project code **IP0MK0000012** entitled "**Aerodynamic analysis of electric distribution towers**" as part of SRIP 2025. Your advisor will be Professor **Manish Kumar**.

Kindly confirm your participation in SRIP 2025 with this Link. After confirmation, please register yourself for this portal. All the submissions will be accepted through this portal only.
Please note below the mandatory requirements of the program. A research proposal will be due One week after joining. You are encouraged to develop a proposal in consultation with your faculty advisor.
The last date for receiving acceptance is **March 28, 2025**. There will be no extension for the acceptance deadline under any circumstances.
Please note that you may get multiple offers from multiple projects but you can ONLY select ONE.

Research proposal due	One week after joining
TF Diary entries due	Every Tuesday
Mid-term report due	3 weeks after joining
Final report due	7 weeks after joining
